SIR,

War Office, 23rd February, 1859.

I HAVE the honor to acquaint you that, with the concurrence of His Royal Highness the General Commanding in Chief, Officers of the General and Garrison Staff now precluded by Circular No. 292 from drawing the pecuniary allowance in lieu of soldier servants may, at their option, retain their soldier servants, or claim the allowance granted in lieu thereof, under the conditions prescribed by Circular No. 193.

CIRCULAR, No. 394.

FOR DISEMBODIED MILITIA REGIMENTS.

SIR, *War Office, 24th February*, 1859.

I AM directed by Secretary Major General Peel to inform you that a fatigue suit, including jacket, cloth trousers, forage cap and boots will, in future, be issued every alternate year to the Permanent Staff of Disembodied Militia Regiments.

I am accordingly to request that you will fill up the inclosed Form; and as the fatigue suit will be issued in the year no dress clothing is received, you will only demand for this year fatigue suits for the men who are not entitled to dress clothing, transmitting the requisite size rolls.

This issue of a fatigue suit on the alternate year will supersede the second dress suit sanctioned by War Office Circular (19,200—Gen. No. 5), 8th July, 1854.

I have the honor to be, Sir,
Your obedient Servant,

SIR, *War Office, 28th February*, 1859.

CIRCULAR, No. 395—*continued.*

MEMORANDUM.

War Office, 28th February, 1859.

Estimates, Drafts. See Articles 53 to 55, Explanatory Directions.

1. IN the preparation of monthly, quarterly or supplementary estimates, the utmost care is to be taken by the Accountant to ascertain as accurately as possible the amount that will be actually required for the services to be disbursed by him. The practice of demanding unnecessary credits is most reprehensible, as well as the habit of overstating known services, for the purpose of providing for possible contingencies. Supplementary estimates can always be forwarded, when necessary, and their amounts are promptly placed at the disposal of the Accountant. When, notwithstanding every precaution, an over-estimate is found to have occurred, either from a sudden reduction, the transfer of a portion of a Corps to the payment of another Accountant or any other cause, the amount over-estimated should on no account be drawn; but it should be reported immediately on discovery, if at home, to this Office, or, if abroad, to the Controller at the Station, and should be distinctly shown in the account current of the next periodical estimate under the head therein provided.

This rule should more especially be borne in mind when services of unusual magnitude have to be provided for, such as the embarkation of a Regiment for Foreign Service.

2. Accountants are on no plea whatever to retain in their hands at any time any larger sum of public money than may be absolutely necessary to meet their actual responsibilities; and in accordance with this principle any sum or sums exceeding 50*l.* coming into their hands from the sale of cast horses or other causes should be at once reported to this Office, and deducted from the next estimate, through the medium of the account current, or paid over to the proper Officer (*i. e.* the Officer from whom the Accountant is in the habit of receiving advances), as the case may require.

Article 6, *Explanatory Directions.*

Agents are to be punctual in reporting all sums paid into their hands by Paymasters and others, taking the directions of the Secretary of State as to their disposal.

3. When a Regiment proceeds from Great Britain to Ireland, or *vice versâ*, careful attention is to be paid to Articles 95, 96 and 97 of the Explanatory Directions which prescribe the course of procedure in such cases.

4. When a Regiment is about to embark from an Irish port for Foreign Service, the Paymaster will recollect that the Regiment will be on the British or India establishment from the date of embarkation, and that the advanced pay, &c. is consequently placed in the hands of the British agent.

5. When a Regiment is under orders for immediate embarkation for Foreign Service, but its departure is temporarily delayed, the Paymaster is at liberty to estimate on the monthly form for the expected period to the day of embarkation, care being taken to attend strictly to Rule No. 1, and such estimate is to be accompanied by a statement of the circumstances which have led to its preparation.

6. The accurate completion of all estimates as to form, signature, etc. being very necessary for the prompt and correct transaction of the financial business of the Army, any unavoidable deficiency in those respects arising from movement of Troops, the sudden change of Officers temporarily in charge of accounts, or other exigencies of the Service, should be explained by a memorandum from the Officer in command accompanying the estimate in which it occurs.

7. The account current attached to the estimates being essential to the accurate adjustment of the cash account of every Corps, it must invariably be carefully attended to by the Accountant, and faithfully completed according to the form prescribed.

Articles 110—167, *Explanatory Directions.*

8. In drawing upon the agent, Paymasters will carefully regulate their drafts so as neither to exceed the proportion prescribed by themselves in their estimates, nor the actual and immediate requirements of the Service. The drafts are in all cases to be limited to expenditure already actually incurred, or sums required immediately to meet advances in accordance with the Regulations. They must never be used as a means of transferring to the Paymaster's separate account with the agent, or to any other than a recognized public account, any sums in anticipation of future disbursements. In like manner the practice, which sometimes prevails at Foreign Stations, of drawing and

Digitized by Google

immediately repaying an unexpended balance of an estimate, which may not be required for the Service, is unnecessary and objectionable.

9. With regard to the separate account of a Paymaster with an agent, above alluded to, it is at all times to be borne in mind that they are recognized solely as the means of adjusting the subordinate cash transactions of the Regiment with Detachments, Companies and the Paymasters of other Corps, and of receiving the numerous small bills, which it is not desirable to introduce into the account rendered to this Office. The use of the separate account is therefore to be strictly confined to such transactions as may be necessary for the above purposes.

10. The practice of introducing net sums into Pay Lists or accounts is to be entirely discontinued, as well with regard to items of expenditure as with drafts, transfers and repayments between Accountants, the full amounts of which are in all cases to be shown in their proper places. Neither should charges and credits, equal and quit, be introduced, apparently for the purpose of equalizing the total drafts with the total estimates, when they do not represent actual transactions.

11. Accountants will bear in mind that all transactions, whether of receipt or expenditure, belong properly to the account of the period *during which they are actually paid*. This principle is to be strictly observed, and is especially applicable to drafts and repayments, whether they be for the adjustment of balances on prior accounts or otherwise. The instructions given in Articles 91 and 92 of the Explanatory Directions will, moreover, in future be considered to extend equally to every quarterly account. The limits within which a certain latitude is allowed are clearly defined in Article 92, and must on no account be exceeded. In giving credit for drafts the greatest accuracy is enjoined in inserting the full particulars as to the amount and date of each individual transaction, with the source from which such money is derived, and similarly with respect to repayments.

12. Accountants should in all cases allow two or three days to elpase after the despatch of an estimate before they draw on the agent or Treasury chest, in order that a sufficient time may be allowed for any communications that may be necessary either for the correction of an error or to secure due attention to the Accountant's drafts. The responsibility of any inconvenience that may arise from the neglect of this rule will in future rest entirely upon the Accountants, who, in the event of being compelled in any instance to depart from it by urgent circumstances, are to mark their estimate as "pressing," accompanying it with a memorandum of explanation.

13. Paymasters at home are to observe that the abstracts of their estimates are to be forwarded to the War Office, and not to the Agent, either directly or under cover, as this practice only leads to unnecessary trouble.

Finally. It is the duty of the Regimental Agent, as stated in Article 4 of the Explanatory Directions, and of any other Officer occupying a similar position, to report to the Secretary of State any serious departure from the Regulations on the part of any Paymaster or Officer with whose accounts he may be connected.

[*See Explanatory Directions respecting estimates, drafts and bills, and especially Article 54 of the same.*]

HOME STATIONS.

SIR,

War Office, 10th March, 1859.

THE Secretary of State for War having decided that in future all articles of diet required for the sick in Military Hospitals shall, as far as practicable, be provided under public contracts; such contracts to be made by the Contract Department of the War Offices in cases where the consumption is large and a Purveyor's Store exists, into which supplies can be received in bulk and issued in detail by the Storekeeper; and by the Purveyor (in the manner hereafter specified) when the number of sick at a Station is small; I am directed to request that you will terminate, as soon as circumstances

Digitized by Google

permit, the arrangements now in force with the tradesmen employed by you to furnish supplies to the Hospitals in the District under your superintendence, in order that the system above mentioned may at an early period come into operation.

Separate instructions will be given to you from time to time as to when the contracts are to be made by you, and when by the Director of Contracts, or as to the manner in which it may be considered advisable to deal with any particular article.

When you are directed to make the arrangements, the order of procedure will be as follows:—

You will call for tenders for supplies from the tradesmen residing in the locality in which the Hospital is situated by advertisement in the local newspapers, or other means affording publicity, and by causing hand-bills (forms of which will be supplied on application to this Office) to be posted, at least a month prior to the expiration of the existing agreement, at the particular Station for which a Contract is required.

Samples of the articles to be tendered for should lie at the Purveyor's Office, or other convenient place, for the inspection and guidance of the tradesmen desirous of tendering for the supply.

A supply of the Form of Tender to be used in all such cases is inclosed herewith.

On the third page of the Form of Tender you will affix Schedule No. 2, which will comprise the names and description of the articles and the probable quantities required during the six months, the manner of delivery, the previous notice which will be given and any other particulars which should form a condition of the tender.

Upon the receipt of the tenders you will apply to the Commanding Officer at the Station to nominate a Military and a Medical Officer to be present at the opening of the same, and to assist you in examining the samples, and in deciding upon the tradesmen by whom the several supplies are to be furnished.

As a rule the lowest tender is to be accepted, and, if in any instance it should be considered necessary to depart from that rule, the reasons for doing so should be fully given. These reasons, signed by the Officers present at the opening of the tenders, should be forwarded to the Purveyor in Chief, together with the duplicate copies of all the tenders sent in (whether accepted or not).

Contracts should embrace a period not exceeding six months, and should only be renewed to the same party on condition that his previous agreements have been satisfactorily carried out, that the supplies furnished by him have been unexceptionable in quality, and his new tender the most suitable of any that may be sent in.

When the limited number of sick at any Station in the District, or any other circumstance, leads you to consider it inexpedient to call for public tenders, you should report the same to the Purveyor in Chief for the information of the Secretary of State for War, with your reasons for arriving at such a conclusion; but it is to be understood that in no case is the system of public tender to be departed from, unless its adoption is either impracticable, or would be attended with inconvenience to the Service.

If at any time the quality of the provisions furnished by the contractor should form the ground of complaint, you will immediately, on receiving a notification to that effect, examine into the case, and, if necessary, apply to the Officer commanding to assemble a mixed board of inquiry, composed of a Military, a Medical and (when practicable) a Purveying Officer, to decide upon the question at issue.

I am, Sir, your obedient Servant,

CIRCULAR MEMORANDUM, No. 402.

War Office, 21st March, 1859.

ALL official letters received by the Purveyor, except those of a strictly personal nature, are to be deposited in the office, and registered in the manner laid down in this Memorandum, in order to facilitate reference.

The date of the receipt of each letter is to be written in red ink under the actual date of the letter itself.

The letters should be registered daily in a foolscap book, with index, in the following form :—

Number and Year.	Date of Letter.	From whom received.	Subject.	How disposed of.
		1st April, 1859.		
1859/1	31/3/59	Purveyor in Chief	Nominal accounts to be sent off on 10th	Noted

		2nd April, 1859.		
1859/3	1/4/59	Medical Officer, Winchester	Complaint, supply of Meat	Wrote to Contr.

The number of the letters should recommence with No. 1, upwards, each yaar, thus, 1859/1, 1860/1, 1861/1, and the papers should be folded octavo. These numbers must not be quoted in the Purveyor's correspondence with this Office.

When documents are received without a covering letter, the Purveyor should register a blank half-sheet of paper, stating therein the nature of the document received, its date, and how disposed of.

The Index of the Registry should contain a list of subjects regarding which correspondence generally takes place, and the number of each letter, as registered daily, should be entered in the index, against the subject to which it refers, as well as against the name of the writer or station from which it comes, so that, in referring back to any correspondence, the Purveyor may have no difficulty in selecting the numbers connected with any given subject during the year.

Digitized by Google

The following list of subjects, to be entered in the index, is sent for the guidance of the Purveyor, and he is to add such others as he may find necessary :—

Accounts, Cash and Provision.
Nominal Returns.
Stoppage Accounts.
Stores (Bedding, Utensils, &c.).
Subsistence (Provisions, Cleaning Articles, &c.).
Wages (Servants).
Regulations (Departmental).
„ (Local).
Travelling Expenses.
Staff (Purveyor's).
Medicines (Leeches, &c., and other Medical charges).
Abstract of Examination.

Medical Staff Corps.

By adopting this course the number and purport of all the letters received and registered daily can be ascertained without difficulty. It will be unnecessary for the Purveyor in future to enter in his letter book copies of letters received ; but all letters despatched should be carefully copied in their integrity, and a note made in the same book of all documents transmitted without a covering letter, on the day on which they are sent off.

19. CIRCULAR, No. 403.

War Office, 21st March, 1859.

REFERRING to Circular, No. 309, dated 7th September, 1858, by which General Officers commanding Districts are empowered to direct the immediate performance of such small works as they may consider to be urgently necessary, and for the want of the immediate performance of which the Service would manifestly suffer,

Secretary Major General Peel has observed that this Circular appears in many instances to have been misunderstood, and that General Officers have ordered the immediate execution of various services, which, though they may be desirable in themselves, are by no means of a nature sufficiently urgent to warrant their having been ordered without reference to himself.

He desires to make the following observations on this subject :—

The funds voted in the annual estimates being limited, the Secretary of State is compelled to maintain a constant watch over the expenditure, and to keep himself acquainted with the sums which can be made available from savings on authorized items, so as to provide for the execution of services not included in the estimates, without exceeding the amounts authorized by Parliament.

What makes this close supervision the more necessary is, that the number of unforeseen services required in the course of the year, which cannot without inconvenience be postponed until the estimates of the ensuing year, is very considerable, so much so that not unfrequently the Secretary of State finds himself reluctantly compelled, from want of funds, to withhold his sanction for their immediate execution.

Under these circumstances it will be evident that the powers granted by Circular No. 309, should only be exercised in those very rare and exceptional instances which will not admit of the short delay of a reference to this Office. General Peel trusts that the foregoing observations will lead to a more clear understanding of the intention of the above Circular, and will be sufficient to induce General Officers to exercise with greater caution than heretofore the powers entrusted to them by it.

CIRCULAR MEMORANDUM,

Addressed to the Army at Home and Abroad.

General No. 155. Ammunition—1 (1859).

Horse Guards, S.W., 25th February, 1859.

THE General Commanding in Chief has been pleased to sanction the adoption of a new pattern blank cartridge proposed by the Superintendent of the Royal Laboratories, for the purpose of assimilating the method of loading with blank to that of loading with ball cartridge, and it appears by a communication from the War Office that cartridges of this description are now ready for delivery. They are composed of the same number of parts as the service ball cartridge, viz., an inner bag containing the powder; a mock bullet, consisting of a paper bag, with a muslin bottom, filled with fine grain powder; and an outside bag to contain both.

In order to ensure the flash of the discharge igniting the powder in the mock bullet, and to prevent its being projected from the musket *entire*, a portion of the bottom of the outside bag is cut away. The operation of loading with the blank cartridge is to be performed in exactly the same manner as with the service ball cartridge. Care must be taken that the cartridge is *reversed* after the powder is poured into the barrel, and that the mock bullet, which occupies the portion covered with bees-wax, is *alone* rammed home upon the powder, the empty powder bag being detached in the usual way before the ramrod is inserted.

By Command.

Adjutant General.

General No. 156. Discharges—1 (1859).

Horse Guards, S.W., 5th March, 1859.

THE Commissioners of Chelsea Hospital still experiencing difficulty in deciding upon claims to pension of Soldiers discharged as unfit for the Service, notwithstanding the Circulars already issued on the subject, dated 29th September, 1838, and 26th May, 1858, His Royal Highness the General Commanding in Chief desires that Commanding Officers will take care, in preparing the discharge documents of Invalids, that the following instructions are strictly complied with:—

1st. Instead of inserting on the first page of the Proceedings of the Board, as directed in the latter Circular referred to, a copy of the charge, finding and sentence of each Court Martial by which an individual may have been tried, these particulars are to be written on a separate sheet; the number of times a man has been tried being alone inserted on the first page after the character, &c. &c.

2nd. When a man has never been tried by Court Martial, it is to be so stated in the same place.

3rd. If never entered in the Regimental Defaulter Book, that fact to be also stated.

4th. The Regimental Defaulter Sheet, instead of being destroyed, is to be forwarded with the discharge documents of the Invalid.

In all other respects the discharge documents are to be prepared as heretofore, and the information required by the Circulars referred to inserted therein.

GENERAL ORDER. No. 724. Arms—1 (1859).

Horse Guards, S. W., 24th February, 1859.

THE recent General Inspection of Arms at Aldershot, Shorncliffe, Dublin and the Curragh has shown that the spare or unused Rifles in possession of Regiments are, with few exceptions, in a very unsatisfactory state of preservation; that they are rusty and gummed up with clogged oil or dirt, and that they cannot be cleaned without the application of some gritty or cutting substance, the frequent use of which would damage and affect the efficiency of the Arms.

Captains or Officers commanding Companies are responsible for the preservation of the Arms, for which they receive an allowance from Government; and the General Commanding in Chief will admit no excuse for any neglect of this important part of their duty. The unused Arms must be those of servants or of men in Hospital, or on the Band; and His Royal Highness desires that all these men (the sick excepted) will parade with their Companies once a week with their Arms and Accoutrements, when a strict examination of them will be made—the barrels inside freed from any obstruction and the locks duly oiled—before being returned to the Arm-chests or placed in the Arm-racks. The Arms of the sick in Hospital are to be in like manner inspected and put in order by the Armourer Serjeant, or as may be directed by the Officer commanding the Company, who is personally responsible for the efficiency of all.

Commanding Officers will add to every Duty State a Certificate that the Arms were duly examined, and found in good order, on the ——, and that the instructions for cleaning Arms, as prescribed in page 11, &c. of the new edition of the Musketry Regulations, are duly observed.

The General Commanding in Chief likewise desires, as a further means of maintaining the efficiency of the Rifles, and of detecting those which may become unserviceable, that an Annual Inspection of the whole of the Arms in possession of Regiments and Depôts at home and abroad may be made in the month of December in each year by Boards consisting of not less than three Officers, one of whom is to be a Field Officer. When available, Officers who have been trained at Hythe are to be selected for this duty; and when practicable, the assistance of one of the viewers of the War Department is to be obtained. The Arms are to be minutely examined stand by stand, and the defects of each duly noted, with a view to such repairs as may be necessary being executed at the expense of Officers commanding Companies. If the means are at hand, barrels which are suspected of being dented, or in any way damaged in the bore or rifling, are to be accurately guaged, and if any are unserviceable their exact number is to be stated, and the causes to which their unserviceable condition is attributed, as well as the dates of issue, are to be distinctly specified in the proceedings of the Boards, which are to be sent on the 1st of January to the General or other Officer commanding the Division, District or Station, for transmission to the Adjutant General and submission to the General Commanding in Chief.

By Command of HIS ROYAL HIGHNESS
THE GENERAL COMMANDING IN CHIEF.

Adjutant General.

GENERAL ORDER. No. 725.

Examinations—2 (1859).

Horse Guards, S. W., 5th March, 1859.

His Royal Highness the General Commanding in Chief directs that the following paragraph be substituted for par. 40, pages 60 and 61, of the Queen's Regulations and Orders for the Army, viz. :—

40. The following qualifications are required in Officers recommended for Staff appointments, viz. :—

AIDES-DE-CAMP.

English Composition.—The Candidate's proficiency in this respect will be tested by his answers to the examination papers.

Foreign Languages.—The Candidate will be examined *vivâ voce* by the Examiner appointed under the Council of Military Education in whatever modern language he

may select, and he will be also required to write a short letter on a given subject in that language.

Military Sketching.—The Candidate will be required to sketch at least two square miles of country selected by the Council. The sketch need not be elaborately finished, but it must clearly and intelligibly represent the features of ground, the principal points of which must be determined by means of the pocket sextant or prismatic compass.

Regimental Duty.—The Candidate must be prepared in all the subjects required in the Examination for promotion to a Troop or Company, as laid down in the General Order of the 29th November, 1858.

Tactics and Field Movements.—The Candidate will be expected to show a thorough knowledge of the tactics and field movements of that branch of the Service to which he is destined to be attached as a Staff Officer, and a general knowledge of those of the other two arms. The Examination will include the movements of the Brigade or Line, and will be based on the Regulation Books for the several arms.

Field Fortification.—The Candidate must show a knowledge of the principles and construction of Field Works, and must be able to explain the particular objects to which they are respectively applicable, as well as the modes of defending and attacking them.

BRIGADE MAJORS.

A certificate will be required from the Commanding Officer of the Regiment to which the Candidate belongs or has belonged, that he possesses all the qualifications of a good Adjutant. The Examination for Brigade Major will be especially directed to the points more immediately connected with the duties attached to the appointment, as "Military Law," the "General Orders of the Army," the "War Office Regulations," and in tactics all that relates to alignments, points of formation, distances, &c., &c. The subjects of Examination are the same as in that for the appointment of Aide-de-Camp, but the Examination will be throughout of a higher order.

DEPUTY ASSISTANTS ADJUTANT GENERAL AND QUARTERMASTER GENERAL.

Military Drawing and Sketching, Judgment of Ground and its Occupation by all Arms.—The Candidate will be required to make a rapid sketch on horseback, with report, of about six square miles of country, and to select a position which might be occupied by a given force of the three arms for some stated object, and to show how he would dispose the Troops for that purpose. He will afterwards be required to make a correct and more finished plan of the position selected, with the disposition of the Troops shown upon it.

Practical Geometry and Trigonometry.—The Examination in these subjects will be limited to determining heights and distances by ground problems and the ordinary trigonometrical calculations, with the aid of logarithms.

Castrametation.—The Candidate will be expected to know the mode of encampment of each arm of the Service.

Permanent Fortification.—The theory and construction of permanent works as exemplified in Vauban's or any other system the Candidate may select, as well as the modes of attack and defence applicable to them.

Military History and Geography.—The Candidate will be expected to give proof that he has carefully studied at least four of the most memorable modern campaigns, of which the details are best known, such as those of Wellington, Marlborough, Napoleon and Frederick the Great, and in these he must be able to explain the apparent objects of the movements, and the reasons which he supposes led to their adoption, and, further, to describe the Military Geography of the Seat of War. In languages, as well as tactics, the Examination will be of a higher order for these than for the preceding appointments.

ASSISTANTS ADJUTANT AND QUARTERMASTER GENERAL.

The Examination for these appointments will be the same as the above, with the addition of Elementary Mechanics (*i. e.* Statics and Hydrostatics) so far as it is necessary for military objects, such as the construction of Dams, Military Bridges, &c.

By Command of HIS ROYAL HIGHNESS
THE GENERAL COMMANDING IN CHIEF.

G. A. WETHERALL,
Adjutant General.

CIRCULAR MEMORANDUM, No. 404.

War Office, 24th March, 1859.

THE Secretary of State for War having decided that in future, except under very special circumstances, no application for the restoration of former service will be entertained from any Medical Officer, who, having voluntarily resigned his Commission, has subsequently been permitted to re-enter the Army, the same is notified for the general information of the Medical Department of the Army.

MEMORANDUM, No. 406.

War Office, 26th March, 1859.

THE enclosed description of the various kinds of fuze made and supplied by Messrs. Bickford and Co. for the service of the War Department is circulated for the information and guidance of Military Storekeepers, Engineer Officers and others who may require to use it.

The principal points to be attended to are:—

1. To demand the particular kind of fuze suited to the required purpose.
2. To keep up as small a store as possible.
3. To use up all the old store before issuing or using new.
4. To pay great attention to the formation of a perfect junction between the fuze and the charge in subaqueous blasting, as it is at that point the fuze is most likely to yield.

B. HAWES.

DESCRIPTIVE LIST OF "BICKFORD'S PATENT FUZES," MANUFACTURED BY BICKFORD, SMITH, DAVEY AND PRYOR, TUCKINGMILL, CORNWALL.

THE Patent Safety Fuze is an instrument manufactured for the purpose of conveying fire to the charge in blasting. It is made of flax, with a column of fine gunpowder in its centre, and appears like a hard varnished cord. To use it—one end of

Digitized by Google

the required length is placed in the charge, and the hole is tamped with any soft substance which will not cut the fuze. Fire must be applied to the fuze itself, which slowly and surely burns to the charge, if care has been taken to select that kind of fuze which the operation requires. It then affords the very best means of blasting ever devised, combining certainty, economy and safety.

No. 1. *Common Safety Fuze.*

This is the smallest kind of fuze which is made, and is only adapted for immediate use in dry ground, where the utmost care is taken in its application, and where the tamping is of a soft and homogeneous character, and is cautiously packed into the hole. In such circumstances it may be usefully employed.

No. 2. *Patent Safety Fuze.*

This fuze is adapted for all blasting in dry ground, being made with an ample quantity of the best materials. When kept at a moderate temperature and carefully used, its certain operation is warranted.

No. 2*. *Patent Safety Fuze.*

This is the same fuze as the preceding, and is only adapted to the same kind of blasting, but is specially varnished for any given climate. That varnish which is suitable for a cold country becomes soft and sticky if exposed to much heat, while that which is suitable for a hot country becomes hard and brittle if exposed to great cold. This inconvenience is remedied as far as possible by the special preparation of the varnish to suit any given temperature, and which should be specified in the order.

No. 3. *Patent White Fuze.*

This fuze is adapted for use in dry ground and in close places, where there is a deficiency of pure air, or where the smoke occasioned by the burning of the common kinds of fuze is found to be inconvenient. Little or no smoke is emitted by its combustion. It is more likely to be injured by damp than the tar-varnished fuze.

No. 4. *Patent Thread Sump Fuze.*

This fuze is adapted for use in damp ground, and is so prepared as to resist the action of any moderate degree of humidity. It has a larger and stronger coating of yarn and varnish, and will bear rougher treatment, both before it is used and during the process of tamping, than the preceding kinds. It is strongly recommended where the careful management of the operatives cannot be relied on.

No. 5. *Patent Taped Sump Fuze.*

This fuze is adapted for use in wet ground, and is specially protected so as to operate efficiently even when the tamping is saturated with water. In such cases the charge of gunpowder should be placed in a cartridge; the end of the fuze should be inserted into the centre of the charge, and the junction of the fuze with the cartridge should be properly protected with a waterproof varnish. If employed in this manner its certain operation is warranted.

No. 6. *Patent Double-Taped Sump Fuze.*

This fuze is covered with a second coating of tape and varnish, and is intended for blasting in very wet ground. It bears just the same relation to No. 5 as No. 4 does to No. 2.

If these kinds of fuze be kept in a dry room, so that the powder be not affected by damp, they will retain their efficiency until the varnish has lost its essential oil and become dust.

Care must be taken that these fuzes be not touched with any greasy or oily matter, as it rapidly penetrates through the varnish to the gunpowder, and prevents the proper burning of the fuze.

If, through exposure to cold, the tar varnish should become brittle and crack, so that there is a danger of the column of gunpowder in the centre of the fuze becoming damped in the hole, it may be remedied by *very slightly* greasing the varnish of the fuze *immediately* before it is used; and if, through exposure to heat, it should become soft and sticky to the touch, this may be obviated by rubbing into it a little whiting or any other such like powder.

No. 7. *Patent Gutta Percha Fuze.*

This fuze is adapted to subaqueous blasting, where it is not liable to much motion from waves or currents, nor subjected to much pressure. It has answered its intended

Digitized by Google

purpose after it has been under water for twenty-four hours, with a pressure of forty pounds to the inch. This is equivalent to the weight of water at the depth of eighty-eight feet.

No. 8. Patent Double Gutta Percha Fuze.

This fuze is superior to No. 7, being protected and strengthened by an additional coating of gutta percha. It will act in a greater depth of water, and will bear a greater strain than the preceding. It burns freely after having been twenty-four hours under water, with a pressure of 140 pounds to the inch. This is equivalent to the weight of water at the depth of 300 feet.

No. 9. Patent Taped Gutta Percha Fuze.

This is the same fuze as No. 7, and is adapted to the same use and duty; but having an exterior coating of tape and varnish, which delays the oxidation of the gutta percha, it retains its efficiency for a much longer time. It is therefore well adapted for service in distant countries.

In all subaqueous operations great care must be taken that the union of the fuze and cartridge be by a perfectly water-tight joint, and the fuze must be strengthened as much as possible both at and near the place of junction, else its swaying to and fro is very likely to break the joint, which would allow the water to soak into the charge.

If these gutta percha fuzes be kept in a dry room, so that the gunpowder cannot become damp, they will retain their efficiency as long as the gutta percha does not become brittle by its oxidation.

CIRCULAR, No. 408.

War Office, 1st April, 1859.

SECRETARY Major General Peel has directed the following arrangements to be communicated for your information and guidance in reference to the issue of empty shells in lieu of hollow shot, and to the issue of shells and fuzes in general so far as regards Naval Service:—

1st. The manufacture of 10-inch and 8-inch hollow shot is discontinued, and empty shells are to be issued in lieu, fitted with metal screw plugs, so as to be used either as shot or shell.

2nd. That until the present store of hollow shot shall be exhausted the issues be half hollow shot and half plugged shell.

3rd. That all wood bottoms be hollowed out, so that shot and shell may be fired together, and issued with the shells, in the proportion of one bottom for every shell and ten per cent. spare.

4th. That copper rivets for bottoms be also issued with the shells, in the proportion of two rivets for every shell, and twenty per cent. spare.

5th. That fuzes be likewise issued in the following proportions:—

As many shells as the shell room in a ship (on first commission) will stow are to be filled and fuzed, three-fourths with Moorsom's and the other fourth with time fuzes. The remainder of the shells are to be plugged, and stowed empty in the shot racks or lockers apart from the shot.

The total supply of fuzes under ordinary circumstances would be 150 per cent. on the total number of filled and empty shells, viz.:—

Moorsom's		75
Time	7½″	25
	20″	50

For every 100 shells.

6th. When a sufficient supply of diaphragm shrapnel shells can be obtained, twenty per cent. of all the shells allowed to a ship for 10 and 8-inch and 32-pounder guns are to be of that description.

The smallest vessel carrying a 32-pounder gun is not to have less than ten diaphragm shrapnel shells on board, in addition to those supplied for boat guns.

7th. That an additional quantity of 6-inch shall be supplied to any ship on board which they can be carried; but the number of 32-pounder solid shot is not to be reduced.

8th. That the fuze holes of all shells be made of one uniform gauge, so as to admit of the use of a Moorsom or of a time fuze, at the discretion of the Commanding Officer.

Digitized by Google

9th. That the following sets of implements be supplied with shells for Naval Service :—

Set of Fuze Implements.	Hand Borer	1
	Brace	1
	Bits, short	18
	„ long	2
	Wrench for fixing fuze	1
	Instructions	6
Set of Shell Implements.	Hammer	1

	Wrench for unscrewing plugs	1
	Instructions	6

The fuze implements to be issued as follows :—

For 300 or less number of fuzes ... ... 1 set
For 300 and not exceeding 600 ditto ... ... 2 sets

and so on for every 300 or less number.

The shell implements to be supplied as follows :—

For 300 or less number of plugged shells ... ... 1 set
For 300 and not exceeding 600 ditto ... ... 2 sets

General No. 242. CIRCULAR, No. 409.

War Office, 2nd April, 1859.

In order to prevent as much as possible interference with the ordinary School duties in Garrisons and Camps, and to secure uniformity of practice at home and abroad, the Secretary of State for War desires that the following rules for the management of Schools for religious instruction shall be observed :—

1. Children attending the Day Schools of Regiments and Garrisons, as well as the boys of the band and drummer boys, may attend the Chaplain for religious instruction at such hours and such places as may be appointed by the authorities on the spot.

2. Religious instruction shall be communicated on two days in every week for one hour each day, to be taken out of the ordinary hours of school attendance. It will also be given on Sunday either before or after the Morning Service, as shall be found most convenient.

3. The children and others of the several persuasions shall attend their respective Chaplains for religious instruction.

4. The hour from eleven to twelve is recommended as best suited to this purpose, and Tuesday and Thursday seem to be appropriate days, provided other duties are not thereby interfered with.*

5. The young persons under religious instruction by the Chaplain of the Church of England and by the Presbyterian Chaplain may assemble in the same room, in separate compartments. The Roman Catholics will assemble separately, the Commanding Officer assigning the place for each class, as local convenience and their relative numbers may dictate.

6. The children attending these classes should be in their places a minute or two before eleven o'clock each day, so as to afford time for calling the roll and devoting an entire hour to the purposes of instruction, and the classes should open with prayer.

B. HAWES.

* Friday is usually a field day, when drummers and band boys cannot attend; but should either Tuesday or Thursday be so used, then Wednesday or Friday may be substituted for Tuesday and Thursday, at the will of the Officer commanding.

Remittances from India on Account of Invalids, &c.

War Office, 6th March, 1859.

With a view to establish a uniform system of remitting Balances, &c. due to Invalids and others returning to this country, all such sums, instead of being reported, as at present, in the Quarterly Remittance Returns or separate Returns, should in future be stated against the names of the men in the Monthly Casualty Returns in which they may be reported non-effective, or in the earliest possible succeeding Return. The names of Invalids should follow, and be kept distinct from, those of deceased men, and the requisite separate receipt of the Treasurer for the sums should be annexed to the Return.

It is at the same time strictly enjoined that all claims of Invalids quitting their Corps in India should, if practicable, be settled before they embark, to obviate the serious inconvenience which frequently results from the men having quitted the Service before the intimation of the sums due to them is received in this country.

THE VICTORIA CROSS.

THE following Officers, Non-commissioned Officer, Drummer and Private Soldier have been awarded the above Decoration, in addition to those whose Names were published in "*The Monthly Army Lists*" for March, June, July, October and December, 1857, and January, February, May, July, September, October and November, 1858, and January and February, 1859.

War Office, 12th April, 1859.

THE QUEEN has been graciously pleased to confirm the grant of the Decoration of "The Victoria Cross" to the under-mentioned Officer and Private of Her Majesty's Army, which Decoration has been provisionally conferred upon them by the Commander in Chief in India, in accordance with the rules laid down in Her Majesty's Warrant instituting the same, on account of Acts of Bravery performed by them during the operations under his personal command, as recorded against their names, viz. :—

23rd Regiment.—Lieutenant (now Captain) THOMAS BERNARD HACKETT.—Date of act of bravery, 18th November, 1857.—For daring gallantry at Secundra Bagh, Lucknow, on the 18th November, 1857, in having with others rescued a Corporal of the 23rd Regiment, who was lying wounded and exposed to very heavy fire. Also for conspicuous bravery, in having under a heavy fire ascended the roof and cut down the thatch of a Bungalow, to prevent its being set on fire. This was a most important service at the time.

23rd Regiment.—Private GEORGE MONGER.—Date of act of bravery, 18th November, 1857.—For daring gallantry at Secundra Bagh, Lucknow, on the 18th of November, 1857, in having volunteered to accompany Lieutenant Hackett, whom he assisted in bringing in a Corporal of the 23rd Regiment, who was lying wounded in an exposed position.

War Office, 12th April, 1859.

HER MAJESTY has also been graciously pleased to signify her intention to confer the Decoration of "The Victoria Cross" on the under-mentioned Officers and Soldiers of Her Majesty's Army and Indian Military Forces, whose claims to the same have been submitted for Her Majesty's approval, on account of Acts of Bravery performed by them in India, as recorded against their several names, viz. :—

78th Regiment.—Colour Serjeant STEWART M'PHERSON.—Date of act of bravery, 26th September, 1857.—For daring gallantry in the Lucknow Residency on the 26th September, 1857, in having rescued, at great personal risk, a wounded Private of

his Company, who was lying in a most exposed situation under a very heavy fire. Colour Serjeant M'Pherson was also distinguished on many occasions by his coolness and gallantry in action.

64th Regiment.—Drummer THOMAS FLINN.—Date of act of bravery, 28th November, 1857.—For conspicuous gallantry in the charge on the enemy's guns on the 28th November, 1857, when, being himself wounded, he engaged in a hand to hand encounter two of the Rebel Artillerymen.

Bengal Horse Artillery.—Captain GEORGE ALEXANDER RENNY.—Date of act of bravery, 16th September, 1857.—Lieutenant Colonel Farquhar, commanding the 1st Belooch Regiment, reports that he was in command of the Troops stationed in the Delhi Magazine after its capture on the 16th of September, 1857. Early in the forenoon of that day a vigorous attack was made on the post by the enemy, and was kept up with great violence for some time without the slightest chance of success. Under cover of a heavy cross fire from the high houses on the right flank of the Magazine, and from Selinghur and the Palace, the enemy advanced to the high wall of the Magazine, and endeavoured to set fire to a thatched roof. The roof was partially set fire to, which was extinguished at the spot by a Sepoy of the Belooch Battalion, a Soldier of the 61st Regiment having in vain attempted to do so. The roof having been again set on fire, Captain Renny with great gallantry mounted to the top of the wall of the Magazine, and flung several shells with lighted fuzes over into the midst of the enemy, which had an almost immediate effect, as the attack at once became feeble at that point, and soon after ceased there.

Bengal Army (Unattached).—Ensign (now Lieutenant) PATRICK RODDY.—Date of act of bravery, 27th September, 1858.—Major General *Sir* James Hope Grant, *K.C.B.*, commanding Oudh Force, bears testimony to the gallant conduct of Lieutenant Roddy on several occasions. One instance is particularly mentioned.

On the return from Kuthirga of the Kupperthulla Contingent on the 27th of September, 1858, this Officer, when engaged with the enemy, charged a rebel (armed with a percussion musket), whom the Cavalry were afraid to approach, as each time they attempted to do so the rebel knelt and covered his assailant; this, however, did not deter Lieutenant Roddy, who went boldly in, and when within six yards the rebel fired, killing Lieutenant Roddy's horse, and before he could get disengaged from the horse the rebel attempted to cut him down. Lieutenant Roddy seized the rebel until he could get at his sword, when he ran the man through the body. The rebel turned out to be a Subardar of the late 8th Native Infantry,—a powerful man and a most determined character.

The Queen has been pleased to direct that the following Regulations respecting Foreign Orders and Medals shall be substituted for those now in force:

Regulations respecting Foreign Orders.

1. No Subject of Her Majesty shall accept a Foreign Order from the Sovereign of any foreign country, or wear the Insignia thereof, without having previously obtained Her Majesty's permission to that effect, signified by a Warrant under Her Royal Sign Manual.

2. Such permission shall not be granted to any Subject of Her Majesty, unless the Foreign Order shall have been conferred in consequence of active and distinguished Service before the Enemy, either at Sea or in the Field; or unless he shall have been actually and entirely employed, beyond Her Majesty's dominions, in the Service of the Foreign Sovereign by whom the Order is conferred.

3. The intention of a Foreign Sovereign to confer upon a British Subject the Insignia of an Order, must be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the British Minister accredited at the Court of such Foreign Sovereign, or through His Minister accredited at the Court of Her Majesty.

4. If the service for which it is proposed to confer the Order has been performed during War, the Notification required by the preceding Clause must be made not later than two years after the exchange of the Ratifications of a Treaty of Peace.
If the service has been performed in time of Peace, the Notification must be made within two years after the date of such service.

5. After such Notification shall have been received, Her Majesty's Principal Secretary of State for Foreign Affairs shall, if the case comes within the conditions prescribed by the present Regulations, and arises from naval or military Services before the Enemy, refer it to Her Majesty's Principal Secretary of State for the War Department, previously to taking Her Majesty's pleasure thereupon, in order to ascertain whether there be any objection to Her Majesty's permission being granted.
A similar reference shall also be made to the Commander-in-Chief, if the application relates to an Officer in the Army, or to the Lords of the Admiralty, if it relates to an Officer in the Navy.

6. When Her Majesty's Principal Secretary of State for Foreign Affairs shall have taken the Queen's pleasure on any such application, and shall have obtained Her Majesty's permission for the person in whose favour it has been made to accept the Foreign Order, and wear the Insignia thereof, he shall signify the same to Her Majesty's Principal Secretary of State for the Home Department, in order that he may cause the Warrant required by Clause 1 to be prepared for the Royal Sign Manual.
When such Warrant shall have been signed by the Queen, a Notification thereof shall be inserted in the Gazette, stating the service for which the Foreign Order has been conferred.

7. The Warrant signifying Her Majesty's permission, may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms.

8. Every such Warrant as aforesaid shall contain a Clause providing that Her Majesty's licence and permission does not authorize the assumption of any style, appellation, rank, precedence, or privilege appertaining to a Knight Bachelor of Her Majesty's Realms.

9. When a British Subject has received the Royal permission to accept a Foreign Order, he will at any future time be allowed to accept the Decoration of a higher Class of the same Order, to which he may have become eligible by increase of rank in the Foreign Service, or in the Service of his own country; or any other distinctive mark of honour strictly consequent upon the acceptance of the original Order, and common to every person upon whom such Order is conferred.

10. The preceding Clause shall not be taken to apply to Decorations of the Guelphic Order which were bestowed on British Subjects by Her Majesty's predecessors, King George IV. and King William IV., on whose heads the Crowns of Great Britain and of Hanover were united.
Decorations so bestowed cannot properly be considered as rewards granted by a Foreign Sovereign for services rendered according to the purport of Clause 2 of these Regulations. They must be rather considered as personal favours bestowed on British Subjects by British Sovereigns, and as having no reference to services rendered to the Foreign Crown of Hanover.

Regulations respecting Foreign Medals.

1. Application for permission to accept and wear Medals which, not being the decoration of any Foreign Order, are conferred by a Foreign Sovereign on British subjects in the Army or in the Navy for military or for naval services, should be addressed, as the case may be, to the Commander-in-Chief, the Master-General of the Ordnance, or the Lords of the Admiralty, who, if they see fit, may submit the same to Her Majesty's Principal Secretary of State for Foreign Affairs for Her Majesty's sanction; upon obtaining which, they may grant such permission without any other formality.

2. Permission to wear a Foreign Medal cannot be granted to a British Subject, unless such Medal is bestowed for military or naval services performed by the command or with the sanction of Her Majesty. But no permission is necessary for accepting a Foreign Medal, if such Medal is not to be worn.

Foreign Office, May 10, 1855. (Signed) CLARENDON.

WARRANTS, CIRCULARS, &c.

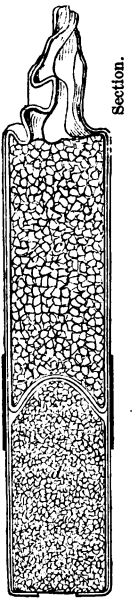
75,
3—296.

CIRCULAR, No. 413.

War Office, 12th April, 1859.

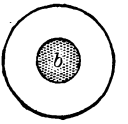
THE Secretary of State for War having, with the concurrence of His Royal Highness the General Commanding in Chief, approved of a new pattern Blank Cartridge for the Rifled Musket, pattern 1853, arranged so as to assimilate the operation of loading with blank to that of loading with ball cartridge, the following particulars are communicated for the information and guidance of Military Storekeepers and others in charge of ammunition:—

The new pattern Blank Cartridge, of which a Drawing is enclosed, is composed of the same number of parts as the Service Ball Cartridge, viz., an inside powder bag, containing 2 drams of F. G. powder, a *sham* bullet, which consists of a paper bag, with a muslin bottom, filled with 1½ dram of F. G. powder, and an outer bag to contain the powder bag and sham bullet.



Section.

Base of Cartridge.



(*a*) Band of purple paper gummed round the Cartridge.
(*b*) Muslin bottom of mock bullet.
(*c*) Inner bag or powder cylinder.
(*d*) Mock bullet filled with fine grain powder.

Digitized by Google

The new pattern Blank Cartridge is only applicable to arms having the same diameter or bore (·577) as the Rifled Musket, pattern 1853.

The blank cartridge hitherto used "for *all* arms" will still be the pattern for the Musket ·758 and all others, excepting those of ·577 diameter; and as the store thereof is at present larger than necessary for the *former*, these cartridges must continue to be issued for the *latter* until the store shall have been reduced to its proper proportion.

These two cartridges are to be described in demands and store accounts as

Blank Cartridges for Small Arms ..... { Common. / For Rifles ·577 bore,

and the barrels containing them will be respectively marked on the heads in the following manner:—

General No. 8,
54.

CIRCULAR, No. 414.

War Office, 16th March, 1859.

1. THE Secretary of State for the War Department has had under his consideration the terms upon which the War Department Property is let, and he considers that, by offering more advantageous terms to the tenant, a better rental may be obtained for the public.

2. As the power of resumption must always be reserved, formal leases for a term of years are inapplicable to the letting of War Department Property; and as the form of tender should comprise all the conditions of the transaction, the tender accepted may at once become the agreement without the execution of any further document.

3. With this object the annexed forms of tender for renting farms, meadows or pasture lands, houses, gardens and for grazing lands, have been prepared and will be used upon all future occasions to which they are applicable.

4. In order to simplify the agreements and to secure an uniform practice, all lettings (save of houses) should, if possible, commence from Michaelmas, which is the most advantageous time of year for a change of tenancy. When such premises are offered for tenancy at any other time, a note is to be added to the tender that a proportionate amount of rent offered must be paid by the new tenant for the period during which he has possession before Michaelmas.

5. The Commanding Royal Engineer will take every opportunity of consolidating, as much as possible, small holdings, and of allotting them as one tenancy when calling for fresh tenders; and to effect this, he may propose to extend the terms of existing tenancies, with a view of making several fall in at the same period.

Digitized by Google

6. When one property is the subject of a tender, it should be described in the Schedule, and written on each form of tender in the following terms:—

"All those pieces or parcels of land, with all buildings thereon, situate in the parish of ——, in the county of ——, of the sizes and quantities following, that is to say:—

No.	Name.	Culture.	Quantity. A.	R.	P.
1	Whiteacre	Meadow	6	2	4
2	Blackacre	Arable	7	3	10

"Excepting therefrom all timber and timber-like trees, and subject to such public right of way (if any) as may exist over the same premises, and also to such right of way for all persons in the employ of Her Majesty, from (for example) north to south, over the enclosures Nos. 1, 2, &c."

The person who has been accepted as tenant is to be apprized by the Commanding Royal Engineer that possession will be given him on his signing the memorandum at the foot of the agreement; but the agreement will not be signed by the Commanding Royal Engineer.

7. Where several lots are described in one tender for separate tenancies advertised for at the same time, they can be described briefly as in the parish of ——, in the county of ——, thus:—

Lot	A.	R.	P.	£	s.	d.
1a. A Close	1	3	31			
3. Arable	5	2	29			
13. Three-cornered Piece	26	0	31			
16. Blackacre	4	2	29			
[*Giving the name of each piece from the Plan or Report.*]						

When the tenders for particular lots are accepted, a full description of that lot should be set out in the memorandum of entry, and signed as in par. 6.

8. All particulars are to be filled in upon the forms demanded as usual from the War Office, and it is of the utmost importance that they should be correctly filled in before they are delivered to the candidates.

9. It will be the duty of the Commanding Royal Engineer, in sending in a septennial report, to state whether any, and what, increase of rent may fairly be demanded from the tenant. The Commanding Royal Engineer will cause this rule to be explained to persons inquiring for forms of tender, and also inform them that no expense will be incurred by tenants for their agreements.

10. The same form will be adopted at Foreign Stations by Comptrollers of Army Expenditure, so far as local circumstances, customs and laws will admit.

11. Should any objections be raised either by lessees or by the local legal advisers of the Department, the Comptroller will, after consulting with the Commanding Royal Engineer, and after laying the subject before the Officer commanding the Troops, adopt any modifications of the terms which may be necessary.

12. There may be many cases in which the form of open tender may be inapplicable, particularly to houses. In such cases the Secretary of State will consider any proposal which may be made for assessing the rent to be demanded at a fair value, and then letting it by advertisement upon the terms of Form, Appendix III., and at the authorized rent, to the most eligible tenant who may present himself in the way adopted by private house owners. The form above quoted may be made to serve the purpose of the agreement.

13. Commanding Engineers will consider and report whether it would be advantageous to the public service to terminate any existing tenancies with a view to reletting the property on these revised conditions. In the case of old and respectable tenants the Secretary of State would not desire to take such steps without giving them ample warning.

APPENDIX I. FORM OF TENDER FOR FARMS.

To Her Majesty's Principal Secretary of State for the War Department.

Sir,

I am willing to become the tenant of and occupy the messuages and lands mentioned in the schedule to this agreement from the 29th day of September next for one whole year, and so on from year to year, determinable as hereafter mentioned, upon the terms and conditions following, that is to say:—

1st.—I will pay the clear yearly rent of —— by four quarterly payments, on the 21st day of December, the 25th March, the 24th June, the 29th September in each year; the first payment to be made on the 21st day of December next.

2nd.—I will pay all tithe or quit-rent, and all other charges, taxes, levies and assessments whatever, now or at any time hereafter levied or assessed on the same premises, or the landlord or tenant in respect thereof (save only landlord's income tax).

3rd.—I will not underlet or part with the possession of the said premises, or any part thereof, without leave in writing under the hand of the said Principal Secretary, his successors or assigns (hereinafter designated the landlord), first had and obtained for that purpose.

4th.—I will not erect any walls, fences or buildings, or dig any ditches or holes on the said premises, without the like leave; but I will keep and on quitting leave in good and sufficient tenantable repair and condition all the buildings, hedges, fences, ditches, drains, posts, rails, gates, gate posts, bridges and stiles now or hereafter upon and belonging to the said premises. All the hedges to be neatly cut, and all the ditches scoured and cleansed once in every year.

5th.—I will, whenever they require it, and once at least in every three years, paint all the gates and the outside woodwork of or belonging to the premises hereby let with two coats of oil paint in a workmanlike manner.

6th.—The landlord, by his agents, shall have right to enter twice in every year to ascertain the state and condition of said premises, and to give notice of any want of reparation, and I will repair according to such notice; and if I shall at any time during this agreement, or at the end thereof, neglect or refuse to repair as aforesaid, it shall be lawful for the said landlord to appoint proper persons to repair the same, or any part thereof, in a good and sufficient manner, the expense whereof shall be paid by me, or may be deducted from any sum due to me on the valuation of my away-going crop or otherwise.

7th.—I will not plough, pare nor otherwise break up any part of the said premises which is now meadow or pasture ground, without leave in writing as before mentioned, under penalty of the payment of twenty pounds per acre as and for liquidated damages, to be recovered as hereinafter mentioned.

8th.—I will well and sufficiently cultivate, till, clean and manage the arable lands of the said farm in a proper and husbandry-like manner, and will sow grass and clover seeds with or upon corn crops as often and in such rotation as is consistent with good farming, which seeds shall remain not less than one whole year after the corn crop with or upon which they may be sown shall have been reaped.

9th.—I will not sow teazles, line, flax, mustard, wood, chicory or rape for seed, nor any other crop not producing fodder for cattle, without leave as aforesaid, and I will cause to be eaten or consumed upon the said premises all the hay, straw, green crops and fodder produced thereon and will make the same into good manure, and yearly and every year lay and spread the same upon the grass and such parts of the arable lands as by regular and rotary cultivation are entitled thereto; and that in addition I will yearly and every year during my occupation of the said premises purchase and spread thereon lime, bones, rape dust, guano or other hand tillage, to the value or cost of not less than one pound per acre for each acre in rotation for fallow, turnips or rape.

10th.—I will leave all the manure on the premises arising from the last year's crop for the use of the said landlord or his next succeeding tenant, on having a valuation to be made by two indifferent persons, one to be chosen by each

party, and in case they cannot agree, then the said valuation shall be fixed by an umpire, to be appointed by the said two persons.

11th.—That on quitting the said farm I shall be entitled to an away or off-going crop from such land, but only such as I shall be able to show I have sown next after a naked fallow, or rape or turnips eaten on the ground with sheep, but that the quantity of the said away or off-going crop shall not exceed one-third of the arable land of the said farm. Should there not be one-third of the arable land in fallow, and turnips and rape stubble, the deficiency shall be made up from grass or clover stubble previously pastured with sheep.

12th.—I will not remove or take the said crop off the said premises, but will leave the same for the use of the said landlord or his next succeeding tenant, subject to a fair valuation for the corn of such crop to be made before the same is reaped, deducting therefrom the standing rent, tithe and all assessments whatever.

13th.—That the said landlord or his next succeeding tenant shall or may sow clover or grass seeds thereon in the preceding spring, and brush and roll in the same in the usual and customary way. That the clover or grass seed sown by me in the spring next before my quitting shall not be eaten, but I will leave the same (on being paid the price thereof) uninjured.

14th.—That I will not fell, cut, lop, top or in any manner injure the growth of any timber or other trees growing on the same premises; but the said landlord shall and may, at all reasonable times, fell and carry away the said timber or other trees.

15th.—I will not cut any furze, wood, reed or spear (if any), or dig or take away any stone, gravel, earth, sand, clay or turf from the said demised premises, without the consent in writing of the said landlord first had and obtained; but that it shall be lawful for the said landlord, at all reasonable times, to enter and cut, and dig for and carry away the same, making a reasonable compensation for any damage to crops arising from the removal of any such gravel, earth, sand, clay or turf so carried away.

16th.—That the tenancy hereby created may be determined on 29th day of September in any year by either party giving to the other a notice in writing on or prior to the 25th day of March in that year of such his wish and determination.

17th.—In addition thereto the landlord may at any time determine the tenancy of the whole or any part of the premises by a demand of possession of the same, and thereupon the said tenancy of the whole or any part, as the case may be, whereof the possession is so demanded as aforesaid, shall be considered as having ceased and determined by virtue thereof; and thereupon the said landlord will pay or allow to the said tenant, by way of compensation, the fair value of the crops growing on the land when so demanded, together with a reasonable allowance for the unspent manure and tillage in the same, and a proportionate reduction for the future rent, which shall be determined by the valuation of two indifferent persons as hereinbefore described.

18th.—After I have given or received notice determining the tenancy as aforesaid, I will thereupon, or at the end or expiration thereof, as the case may be, peaceably and quietly deliver up the possession of all the said premises unto the said landlord or his next succeeding tenant in such good and sufficient repair and condition as is hereinbefore mentioned, or I will pay twenty pounds per day as liquidated damages for holding the same, or any part thereof, over and beyond the time specified herein, to be recovered as hereinafter mentioned: And the sums I have hereinbefore agreed to be paid as damages shall be recoverable by distress as rent in arrear; and in all cases of distress for the same, or the rent payable under this agreement, it shall be lawful for the landlord to sell, subject to a condition that the crops and produce shall be consumed in some convenient fold, yard or field, to be selected by the landlord, and that convenient stack room and the use of the barn may be had by the purchaser for such time as can be reasonably required.

And lastly, I expressly agree (as an express condition) that if the rents hereby reserved shall be in arrear in whole or in part for twenty-one days after the days of payment, or if I shall break or infringe any of the clauses and agreements herein contained on my part, or if I shall become bankrupt or insolvent, or compound with my creditors, or make any assignment of this agreement, or any assignment of my personal

HOME STATIONS.

War Office, S. W., 25th April, 1859.

INCONVENIENCE having arisen from the want of a uniform practice in making requisition for such Barrack accommodation as may be required to be handed over to the Royal Engineer Department for the execution of works or repairs which have been duly authorized, either on an annual or special estimate,

The Secretary of State for War has, with the concurrence of His Royal Highness the General Commanding in Chief, been pleased to give directions that the following course shall hereafter be followed whenever Barrack accommodation may be required by Commanding Royal Engineers for the purposes above specified.

In Great Britain Commanding Royal Engineers will make applications to the Inspector General of Fortifications for such amount and description of Barrack accommodation as may be required, sending in all instances a detail thereof upon the subjoined form. The same will then be transmitted to the Quartermaster General, who will, if no objection exists, give the necessary orders to the Officer commanding for the building, if occupied, to be vacated and handed over to the Barrack Master, informing the Secretary of State for War of the steps taken.

If not occupied, he will signify the concurrence of the Commander in Chief to the building being transferred to the charge of the Royal Engineer Department.

The Inspector General of Fortifications will then instruct the Commanding Royal Engineer and the Barrack Master concerned, and the latter will take such steps as may be necessary, and will apprize the Commanding Royal Engineer when the buildings can be transferred to him.

In Ireland a similar course will be followed, but the District Commanding Royal Engineer will in this case apply to the Commanding Royal Engineer in Ireland, who will communicate with the Deputy Quartermaster General in Dublin, by whom the necessary steps will be taken, he apprizing the Commanding Royal Engineer, who will acquaint the District Commanding Royal Engineer and the Barrack Master accordingly.

Commanding Royal Engineers are required to send in their applications at least a fortnight, and when practicable one month, before the buildings which they demand are actually required.

It is desirable that works and repairs necessitating the vacation of Barracks should be executed as far as possible between the 1st May and 30th September of each year.

To General and other Officers commanding, Comanding Royal Engineers and Barrack Masters.

GENERAL ORDER. No. 727.

Staff College—2 (1859).

Horse Guards, S. W., 12th May, 1859.

THE following Regulations regarding the Examination of Officers who may be Candidates for admission to the Staff College are published for the information of the Army in reference to the first part of the General Order dated 4th February, 1859 (Staff College—1 (1859)) :—

HOME STATIONS.

Officers serving in the United Kingdom, who are desirous of entering the Staff College, will be examined in London on the 1st August next.

Commanding Officers of Royal Artillery, Royal Engineers, and of all Regiments and Depôts of the Cavalry, Guards and Line on the Home Station will forward to the Adjutant General through the usual channel, for the consideration of the General Commanding in Chief, the applications of such Officers as wish to compete for admission, together with the necessary Certificates.

These applications should be sent in not later than the 1st July, after which date the Officers approved of by His Royal Highness will be instructed to place themselves in communication with the Council of Military Education, with the view to their receiving the Regulations for the Examination.

FOREIGN STATIONS.

At Foreign Stations the following Regulations will be strictly adhered to :—

A Board of Officers will be appointed by the General Officer in command, and will consist of three Officers, one of whom to be, when practicable, a Staff Officer, having

the rank of Field Officer, and the other two, if possible, not under the rank of Captain. One of these Officers will belong to one of the Scientific Corps, where any such Officers can be obtained.

The Examinations will be conducted by means of the same printed questions as are set for the Examination of Candidates in London, and they are to be answered in the presence of the Board.

The Board will give to each Candidate a number, which he will affix to each of his Examination Papers instead of his name. He will retain the same number throughout the Examination.

The Board will give to each Candidate a paper of the printed Examination Questions on each subject at the time specified for the Examination in that subject.

The Candidates will write their answers to the questions in the presence of the Board, and their papers, together with the printed Examination Questions, will be collected at the hour appointed, and made up into a packet, which will be sealed before being taken from the Examination Room.

The Board will, immediately on the conclusion of the Examination, forward the papers of the Candidates to the General Officer commanding for transmission to the Council of Military Education, accompanied by a Certificate that the Candidates obtained no assistance from books or help of any kind in their Examination. The Board will at the same time forward the names of the Candidates, corresponding with their index numbers in the Examination, in a separate envelope for transmission to the Council of Military Education.

The following will be the order of the Examination :—

1st Day.

Mathematics—Obligatory portion, 1st Paper	3 hours.
„ „ „ 2nd Paper ... ... }	3 „
„ and Voluntary portion, 1st Paper ... }	

2nd Day.

Mathematics—Voluntary portion, 2nd Paper	3 hours.
Military History—1st Paper	3 „

3rd Day.

Military History—2nd Paper	3 hours.
„ „ 3rd Paper	3 „

4th Day.

French	3 hours.
Chemistry	3 „

5th Day.

German	3 hours.
Geology	3 „

6th Day.

Fortification	3 hours.
„	3 „

7th Day.

Military Drawing	3 hours.
„ „	3 „

There will be in all cases an interval of not less than one hour between the two periods of Examination on each day.

The Papers will be collected at the appointed hours by a Member of the Board. Any Candidate, however, who may have finished his Examination Paper on any subject before the hour named, may deliver it into the hands of a Member of the Board.

Candidates will bring their writing and drawing materials, instruments, &c., and also the tables of logarithms they are in the habit of using. No other books or notes of any description will be allowed to be used.

It is scarcely necessary to observe that no communication whatever will be allowed between the Candidates at the Examination.

Officers commanding Regiments abroad are to transmit to the General Officer in command a Return of the Officers desirous of competing, together with a Medical Certificate of good health, and fitness for the active duties of the Staff. Such Officers will then be ordered to join at Head Quarters for Examination, or at any other places which may be selected for the convenience of those at the more distant Stations.

With reference to paragraph 4 of the Horse Guards Memorandum of the 17th December, 1857, which directs "that if the Commanding Officer of the Regiment, or the General Officer commanding, cannot recommend the application of any Candidate, the grounds of objection are to be distinctly stated," it is to be observed that as there will not be time at distant Foreign Stations to refer to the Adjutant General on the subject, such Officer should in all cases be permitted to undergo his Examination, on the understanding, however, that the objections urged against his application will still be submitted for the decision of His Royal Highness the General Commanding in Chief.

General Officers commanding at Foreign Stations will place no restrictions upon Officers competing further than the exigencies of the Service may absolutely require. Only one Officer can be spared from a Battalion at a time for the purpose of studying at the Staff College; but this rule will not prevent the Examination of Candidates from Battalions which have Officers now at the College whose course of study will terminate in December next.

General Officers commanding at Foreign Stations will select the hours for the Examination which are best suited to the climate and circumstances of the country, taking care, however, to conform strictly to the number and distribution of the hours as detailed in the foregoing Regulations.

On the completion of the Examinations at their Head Quarters, General Officers commanding should transmit the Candidates' Papers immediately to the Council of Military Education, without waiting for those at Out-Stations, and in like manner they should forward without delay the Papers from each Out-Station as soon as received.

Officers serving abroad, who may be successful Candidates, will be allowed the regulated passage money home on joining the Staff College.

The names and Examination numbers of the successful Candidates, and the Examination numbers alone of the unsuccessful Candidates, will be published immediately after the Reports of the Examiners have been received by the Council of Military Education, with the marks gained in each subject, and the place attained by each Candidate.

By Order of His Royal Highness
The General Commanding-in-Chief.

G. A. WETHERALL,
Adjutant General.

THE QUEEN has been graciously pleased to signify her intention to confer the Decoration of "The Victoria Cross" on the under-mentioned Officer of Her Majesty's Army, whose claim to the same has been submitted for Her Majesty's approval, on account of the Act of Bravery performed by him in the Crimea during the late War, as recorded against his name:—

HER MAJESTY has also been graciously pleased to confirm the grant of the Decoration of "The Victoria Cross" to the under-mentioned Officer of Her Majesty's Indian Military Forces, which Decoration has been provisionally conferred upon him by the Commander in Chief in India for distinguished gallantry displayed by him in that country when serving under his immediate command, as recorded against his name:—

42nd Regiment.—Private JAMES DAVIS.—Date of act of bravery, 15th April, 1858.—For conspicuous gallantry at the attack on the Fort of Ruhya, when, with an advanced party to point out the gate of the Fort to the Engineer Officer, Private Davis offered to carry the body of Lieutenant Bramley, who was killed at this point, to the Regiment. He performed this duty of danger and affection under the very walls of the Fort.

MEMORANDUM.

42nd Regiment.—Private EDWARD SPENCE would have been recommended to Her Majesty for the Decoration of "The Victoria Cross" had he survived. He and Lance Corporal Thompson of that Regiment volunteered at the attack of the Fort of Ruhya on the 15th of April, 1858, to assist Captain Groves, commanding the 4th Punjab Rifles, in bringing in the body of Lieutenant Willoughby from the top of the glacis. MEMORANDUM.

ARTIFICIAL ARMS AND LEGS.

THE Lords and others Commissioners of Chelsea Hospital having at the suggestion and recommendation of the Secretary of State for War, made Arrangements for the supply of Artificial Arms (constructed upon an improved principle) and of Artificial Legs (in imitation of the natural leg, both as to form and motion) to those Commissioned Officers who have been wounded in the Service, whose means may not enable them to provide themselves with more expensive contrivances,—it is hereby notified, that such Officers who may be desirous of availing themselves of this benefit, and whose cases may come within the above regulation, should address their applications upon the subject to the Secretary of Chelsea Hospital. It is, however, to be clearly understood, that, as this is intended to be a boon to Officers of the above description, no pecuniary allowance in lieu can be granted to Officers who may prefer providing themselves with other substitutes for limbs.
